among the purchasers of any article of human need, whether of shelter or food or clothing, is a very base and paltry one, and deserves to recoil on the heads of the interested alarmists. People cannot pay half their incomes for house accommodation, and in many cases will not if they could. They adopt the inevitable course either to give up housekeeping altogether and go to boarding, or they give up their houses and take to apartments. Either plan involves a just retribution upon the owners. And why should it not? This city is a crowded city of course, but not more so than two years ago; while in the suburbs many new residences have been built, and many more are in process of building. If the owners of New York property wished to depreciate that property in the long run, they could not have taken a quicker method of doing so than by forcing an indigent public to look for homes in lodgings or out of town.

Correspondence of the Clarion. LETTER FROM NEW ORLEANS.

NEW ORLEANS, April 26th, 1866. DEAR COLONEL :- You seem to be getting along in Jackson very well, notwithstanding your over-loaded wagons pay 83 ferriage ooo men but with an organization capable of to get over Pearl into the free State I trust expansion to \$2,600. His own opinion was that reconstruction and revision will enventually take place, especially as Hinds is also a free State now. If our river was only as bridgeable as Pearl, how gladly would we without going into the details, it would be bridgeable as Pearl, how gladly would we bridgeit! But it is neither bridgeable nor abridgeable, as the crevasses constantly occurring show. The one on the right bank, about six miles below Algiers, was closed this week and just then another occurred twenty miles below on this side in the neighorhood of Dan Hickock.

You may know Dan. Sometimes I cannot but wish that the crevasses were let alone until the annual accumulation of soil, which the river would bring to them, and finally all become high land. Those from the country can board with good families, speaking English, French, Spanish or German, at \$25 to \$50. business education that enables one to earr \$2.20 or \$3000 annually, is the best fortune parents can give their sons. As the College has been in successful operation for more than a quarter of a century, and the practical plan here pursued received the unanimous commendations of the press and business community, and as several thousands of its former students are now in business in this city and over the country, it is keemed useless to go into an ex-tended explanation of the plan or merits of the Insti-tution.

tution.
So far as known, not one of the many thousanks of former students is now out of employment, and so far as known no tone in a thousand of those who have been sent for years to Europe or the North, is qualified on returning home to enter a business house, although thousands of dollars have been expended on his education. A word to the wise is sufficient. sufficient.

The city is now healthy. Persons from 12 to 50 years of age attend such branches as they may wish. By having a special Professor for each branch three fourths of the student's time is saved. Those who have-entirely neglected their edecation for the past years can here be prepared for any attention in business, whether as Book-keeper, Merchant or Clerk, in from three to six mouths. The Agricul tural and Mechanical Departments will be organs. Clerk, in from three to six months. The Agricultural and Mechanical Departments will be opened as authorized by the Charter, as soon as suitable Professors are secured to take charge of them. Nothing is now so much needed in the South as scientific education in these departments of industry, which produce the wealth of the country. Students intended for this College should bring this circular or special directions, as over winter there are temporary establishments opened. Young students abould put their funds in the hands of their merchant, or the President of the College. Oftizens and strangers are invited to call College office, Room No. 7.
